

Note: Traineeships are delivered by the Education and Training Boards (ETBs). The decision by an ETB to deliver a traineeship is determined based on the needs identified in collaboration with industry/employers in the sector and local requirements.

Therefore, not all ETBs will offer every traineeship; likewise, elements of a traineeship such as the content, award, duration etc may vary based on the needs identified.

The information below is a sample only; it gives an idea of what this traineeship involves but may not be replicated exactly across ETBs offering this traineeship.

SAMPLE DESCRIPTOR

Engineering and Motor Technology Skills Traineeship

This new and exciting traineeship is ideal for those considering a career in the Engineering / Motor sector or considering entry to an apprenticeship in these areas. It is a full time course comprised of a blend of direct instruction and work placement. The course content will be delivered in a practical and hands on environment where students will gain experience in engineering workshop processes, motor vehicle practice and an introduction to MMA Welding, along with other relevant modules. No previous experience is necessary.

Typical Certification:	QQI-FE Level 5 Motor Technology Welding Certification
Typical Content:	Auto Electricity Computer Aided Draughting (2D) Electronics Engineering Workshop Processes Engineering Workshop Theory Manual Metal Arc Welding Motor Vehicle Practice Motor Vehicle Theory Personal Effectiveness Safety and Health at Work Work Practice
Typical Duration:	52 weeks All Traineeships have a minimum of 30% on-the-job learning.
