

Note: Traineeships are delivered by the Education and Training Boards (ETBs). The decision by an ETB to deliver a traineeship is determined based on the needs identified in collaboration with industry/employers in the sector and local requirements.

Therefore, not all ETBs will offer every traineeship; likewise, elements of a traineeship such as the content, award, duration etc may vary based on the needs identified.

The information below is a sample only; it gives an idea of what this traineeship involves but may not be replicated exactly across ETBs offering this traineeship.

SAMPLE DESCRIPTOR

Machine Tool Operations Traineeship

The purpose of this award is to equip the learner with the knowledge, skills and competence to operate conventional centre lathes and milling machines to produce moderately complex components confirming to set parameters to include dimensional accuracy and surface finish in a manufacturing environment.

On successful completion of the programme, learners may progress into higher education and training or to employment.

Employability Statement: The successful completion of the QQI L5 Special Purpose Award in Machine Tool Operations will enable applicants to find employment as a Machine Tool Operator in a manufacturing environment.
